

Would You Try It? Vaginal Rejuvenation Cream

JANUARY 16, 2009 AT 6:30 AM by **Cafe Kristen**

I use Olay Regenerist Night for my face to keep my eyes bright and my smile lines light.

But according to **Pk24**, I might need some youth dew for my vagina, too.

Supposedly, Pk24 is the only clinically tested product that can help women regain our youthful sexuality and turn back the clock on our love lives.

Would you try vaginal rejuvenation cream?

Created by a woman for women, this all-natural cream promises to tighten the interior vaginal walls for approximate 24 hours. You apply a dime-sized amount of the cream to the insides of your vagina.

You can use it before sex for possibly more orgasms or anytime during the day.

Pk24 costs \$59.95 for 1 ounce.
