## pk24

### New Year, New You The Easy Way

THURSDAY JAN 1, 2009 – BY NICOLE MITSCH

#### **Resolution: “Improve my sex life”**

**Product that will make this easier to keep:** pk24 (\$59.95, [pk24.com](http://pk24.com))

What it does: I haven't met a woman who isn't trying to improve her sex life. Whether that be an improvement in quantity or quality. I know a lot of women who try to practice kegals but they take time and concentration and a lot of us don't have enough to give of either. Well enter pk24. It is the first and only clinically tested, anti-aging vaginal rejuvenation cream formulated to hydrate internal vaginal walls and create a “youthful” tightening effect. pk24 is a safe and proprietary blend of ingredients, manufactured in the United States to ensure quality. The cream is lightweight and non-irritating. It is fast-acting and long-lasting to ensure a pleasurable time now or later. With this cream this resolution should be easy and fun to keep.
