

# “This creme transformed my marriage...”

...and brought back the thrill of being together—which, as it turns out, doesn't have to disappear over time. I tried pk24 and my husband commented that I brought a youthful quality to our love making. In fact, he said it was magnificent!”

— Martha Cromwell, 50, Los Angeles

**pk24**, the first and only clinically tested anti-aging vaginal rejuvenation creme, is formulated to hydrate internal vaginal walls and create a youthful “tightening” effect lasting up to 24 hours. The effect allows for greater friction, and in turn enhances sensation and sexual pleasure for both a woman and her partner.

pk24 was created by a woman, to help women counteract the problem of vaginal relaxation that generally results from childbirth or aging—and regain their youthful sexuality. In clinical trials, 78% of women reported they achieved orgasm sooner and more often when using pk24.

Manufactured in the U.S., pk24 has been tested for safety and efficacy in clinical trials. Distinguished Los Angeles gynecologist Shamsah Amersi, MD suggests pk24 for women with feminine esteem issues.

“pk24 is not only a great product, but one that actually works!” says Karen F. of New York. “My husband and I are not only more interested in sex, but pk24 has made it a much better experience. He now chases me, where he never did before, which makes me feel so much better about myself.”
